

# Lily Lane

**Stronger Together**

## #Proud

We are really proud of how reception are really focusing on their learning in their classroom. They are working super hard and are making lots of progress in their learning. We have had lots of children chosen by their teachers to receive a 'shout out' in our celebration assembly on a Friday, these shout outs are for their positive attitudes to learning, their kind friendships and their positive behaviour choices. Keep up the hard work.

## #Curriculum Spotlight

This week, year 4 have been learning about the mummification process as part of their Ancient Egypt topic. They have really enjoyed this learning and have loved telling all of the adults in school about this process.

As a staff team we are continuing with our own learning in school. This week, we have worked alongside consultants for Literacy and our wider curriculum, we have been looking at how we develop these across the school and embed them into everyday life. We will continue to work with these consultants during the rest of this academic year and will update you throughout this time to let you know what we have been getting up to.

## #TTRockstar Day

We will be having a dress like a 'TTRockStar day' on Friday 17th February to promote and encourage children from years 2,3,4,5 and 6 to improve their times tables knowledge by playing times tables games on Times Table Rockstars. We have lots of children already paying and class tournaments in each year group are set up weekly. We would like ALL our children to be playing! The winning class will now begin to be announced in the Friday celebration assembly and certificates will be given to the child with the most coins and the child with most improved score. All children were given their username and password at the start of the year, however, please let your child's class teacher know if they don't have it. More details to follow about the dress up day!

## #Safer Internet Day – Tuesday 7th February

Tuesday 7th February is Safer Internet Day. The theme this year is: 'Want to talk about it? Making space for conversations about life online'. The children will be taking part in an assembly and will be exploring the theme as part of their Computing lessons.
