

Attendance

We are seeing fantastic progress in the children that are in school everyday. Thank you for your support with this. Let's keep this up unless they are unwell as some children are missing lots of learning.

Nursery starts at 8.50am

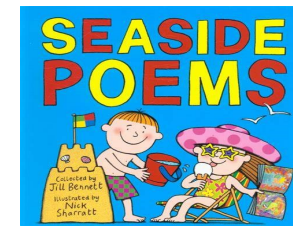

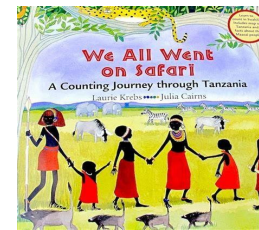

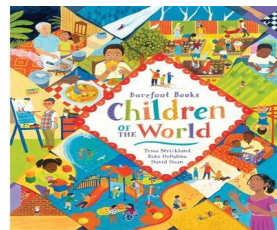

Our morning routine is really important as the children are now writing their names without the template to trace! This is immediately followed by our morning meeting where we discuss what day it is, the weather and practise our counting.

Library club and reading books

Please make sure your child brings their book bag in everyday. Library Club will still be on a Friday so please continue reading the stories throughout the week and returning them on Friday to ensure your child has a new story to take home. The children love their story time in Nursery!

'Adventure'

Whilst we learn all about the world and our place within the world, you can enhance your child's learning by talking about where you live, helping your child learn their address and about their local area. We'll be looking at lots of different maps and aerial views and comparing our country to others!

Maths

In maths we will be focusing on forming numbers, talking about length and distance and using lots of positional language!

Dojo

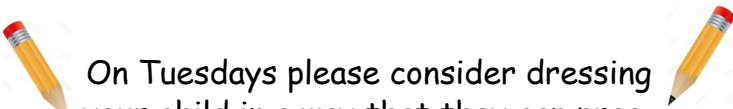

The children are really enjoying earning Dojo points and prizes. It encourages the children to make positive choices, especially at tidy up time!

If you are not signed up to our class Dojo, feel free to write down your email and give it to Miss Pattinson at the gate to be signed up!

Dance

This half term we will continue our PE dance sessions as we re-tell the story of the hungry caterpillar. The children loved this story and are already recalling the story and coming up with ways to move their body like the characters.

On Tuesdays please consider dressing your child in a way that they can practice their independence and remove themselves. Try asking your child to put their own shoes and socks on at home where ever possible to help the children master this skill! Please double check your children's jumpers have their names.

Literacy

The children are loving exploring different stories within our themes and we will continue this.

Our phonics sessions will also continue, the children know a lot of sounds are doing brilliantly identifying initial sounds and blending our Fred talk! Try sounding out simple, short words at home and seeing if your child can blend to identify the word!

Maths

In maths we will be focusing on forming numbers, talking about length and distance and using lots of positional language!

Geography

The children will learn all about Moston and Manchester as well as other places both in and out of England and we will compare the two.

We will use directional language when talking about different places and speak!
